is given by using Brown's IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. Brown's Iron Bitters ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H, S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for Brown's Iron Bit-TERS, and insist on having it. Don't be imposed on with something recommended as "just as good." The genuine is made only by the Brown Chemical Co. Baltimore, Md.

Controller Hallock's report shows that Churchill, Elko, Esmeralda, Lander, Lincoln and Washoe counties in 1882 show an increase of assessable property valuations over 1881 to the amount of \$1,074,077 15, but Douglas, Eureka, Humboldt, Lyon, Nye, Ormsby, Storey and White Pine counties show a decrease to the amount of \$2,071,980 45; and a total decrease in the State of \$997,903 30. The depreciation is most marked in Storey county, which showed a valuation in 1881 of \$5,212,823 39, and in 1882 of \$3,926, 216 10; a decrease of \$1,286,607 29.

Senator Schooling's bill to do away with official bonds has much to recommend it. If the people elect a man to office, they should be responsible for him. As it is, he gets two or three men on his bonds who receive no benefit whatever if he is faithful, and at the same time have to suffer all the loss it he is defaulter. We have the penitentiary for such men, and the public is the party that should stand the loss, as it is the party that receives the benefit of the office.

As to the floor, as yet the embryo statesmen have hardly come to hatching, but their eloquence and influence are undoubtedly in course of rapid incubation; while the hold-over apostles are already smelling the statutes and breaking the legislative ice. Among the present active members we note Brumsey, Hobart, Taylor, Henderson, Parker, Williams, Foley and School-ing. As to important legislation, so far no prominent advance has been made. As to measures prior to this date, your resters are already advised. To-day Brumsey's bill repealing the officers' exemption law passed, and it will probably float safely through the House. It provides for the attach ment of official salaries for all debts contracted during the term of office and exempts all prior to election. Its policy is questioned by some of the Legislature wiseacres, but its becoming a law is highly probable. Ho-bart's bill touching the rights of hus-band and wife in the case of intestate estates also passed. It provides for exclusion of correlative heirs and gives to the wife the whole of the community property in case of the non-exist-ence of direct heirs. It will no doubt become a law. The passage of Foley's bill does away with the barbaric "L. S." on legal instruments, and valida-tes them without the superfluous and ates them without the superfluous and frequently disastrous "seal." It is expected that Taylor's repeal of the "bullion tax" law will come up next week, when no doubt there will be music in the Senatorial air, and a "An Indian Duck Merchant."
